I don't think that is a complete list. I think that we should assume there was more.

Doesn't look like a significant quantity to be much of an issue.

The following was present during an inspection conducted by TDA a couple of weeks ago. It was provided to us from the inspectors memory as an actual inventory was not conducted and may or not be representative of what was there at the time of the incident.

Fungicide - 6 pallets of fungicide
Glysofate (roundup) - 2 (55gallon drums)
2,4 D. - 2-4 pallets
Grazon - unknown quantity
Atrazine - unknown quantity
